

10W wireless suction cup and air-vent grid jaw holder

ENJOY THE WIRELESS CHARGE WHEREVER YOU WANT!

Charge your smartphone easily with this 3-in-1 Induction charging holder, specifically designed to be used in your car. Just place your smartphone on the holder to activate the charge. From now on, you won't need a cable anymore. The holder is powered by a micro-USB cable linked to your vehicle's cigarette lighter (cable and charger included). This versatile holder adapts itself to any type of vehicles thanks to its 3 in 1 holder composed of a windscreen suction cup, an air-vent fixation and a dashboard adapter. Located in the back of the holder, a button allows you to adjust the jaw to your smartphone size (compatible up to 6"). To ensure the best comfort, you will be able to incline your smartphone in portrait or landscape mode thanks to its 360° rotary head. The induction charge is compatible with any smartphones equipped with an induction receptor or a wireless charging case.
