

Smartphon - Smartphone cases - Apple® Cases

Silicon soft case for iPhone 13 Pro

SUBLIMATE YOUR SMARTPHONE WHILE PROTECTING IT.

Protect your iPhone 13 Pro with this soft silicone case. This case is made from silicone, a material that is both flexible and resistant, providing protection against shocks and scratches. Designed specifically for your iPhone 13 Pro, it allows you to access all the features of your smartphone while preserving its design. Its smooth surface, pleasant to touch, makes it easy to store your smartphone in your bag or pocket. An anti-slip coating is applied to the outside of the case, your smartphone holds well in hand and you no longer have the risk of dropping it. We know how valuable your smartphone is, so we've added microfiber to the inside of the case, no risk of scratches or even marks. Your smartphone is therefore protected from the inside and the outside. The four corners of the case are reinforced to avoid any risk of damage in the event of a fall
